

# Why Attend?

## Earn supplemental income from your land

We help landowners learn how to generate supplemental income from their property. Whether you're considering starting an outdoor business or already have one that you'd like to expand, the information presented at this workshop will help you.

## Talk directly to experts and business owners

Morning presentations will allow you to ask questions and talk to legal experts, wildlife habitat specialists, local outdoor business owners, accountants, marketing specialists, and other professionals.

## Learn about different outdoor businesses

Not sure which outdoor business is right for you? We'll talk about the various types of outdoor businesses, including the pros and cons and income potential of each. Examples include outdoor recreation business opportunities, such as leasing land for hunting and starting agritourism or other businesses based on harvesting the resources on your land (examples: Christmas tree farms and u-pick farms).

## Need more information?

Visit the Natural Resource Enterprises program website at [www.naturalresources.msstate.edu](http://www.naturalresources.msstate.edu) for information about what we do, how to start a business, how to operate a business, how to grow a business, and more.

# Schedule

Registration begins at 8:30 a.m., and the program begins at 9 a.m. The program will wrap up at approximately 3 p.m.

## Morning Presentation Topics
